Hyojin Im

hyojinnnnim@gmail.com +82 10-6342-6623 Portfolio

Education

Mar 2019 – Feb 2025 | **Hongik University, Sejong, South Korea**
B.S. in Software Convergence GPA: 3.76/4.5 (Major GPA: 3.99/4.5)

Research & Professional Experience

Mar 2025 – Present | **SOULSOFT, AI Development Team – AI Engineer**
- Developed a multimodal LLM pipeline for food recognition and nutrition estimation.
- Automated Vision-LLM data filtering, improving accuracy from 82.20% to 91.42%.
- Developed disease prediction models, achieving an AUC of 0.89 for metabolic syndrome.

Dec 2021 – Jun 2023 | **INEEJI, AI Research Lab – AI Engineer**
- Developed a hybrid linear + 1D-CNN model for 3-hour furnace temperature prediction.
- Deployed the model for furnace control, reducing fuel consumption by approximately 3%.

Patents

2024 | Electronic Device for Realizing a System for Predicting and Controlling Temperature and Its Control Method, Korean Patent No. 10-2640747 – Co-inventor (INEEJI)

Award

2022 | **Grand Prize (BK21 Program Director's Award)**, Hongik University Capstone Project Fair – AR Virtual Try-On

Language

2026 | TOEIC Speaking – Advanced Low
